

# Health Emergency Management (HEM)

# Health Emergency Management (HEM) Vancouver Coastal Region

## Areas of Support

## What We Do

We follow communities' lead and work together to support their ways of managing public health emergencies.

## What We Offer

- Coordinate with local, regional, provincial, and federal partners
- Presence and response in community
- Linkages to mental health, wellness, & cultural supports
- HEM resources (medical and health supplies, information, support for HEM planning and strategies

## Our Approach

In addition to the **4 pillars of Emergency Management**, we work from a First Nations Perspective on Wellness

(pictured right). This perspective was co-created by the FNHA and BC First Nations, including traditional teachings and approaches shared by First Nations Healers and Elders.
